

Invitation to the town-twinning conference in Loimaa on the 1.-2.6.2021

Loimaa is happy to host the town-twinning conference in 2021. Due to the current corona-situation, the conference will for the first time be arranged as a virtual conference.

The overall theme for the conference is *Small Cities in an Urbanizing World*, with a focus on how Mosfellsbær, Skien, Thisted, Uddevalla and Loimaa have managed through the corona crises, the importance of digitalisation in these times.

During the conference the new twin city agreement will also be signed.

The cultural exchange Nart will take place as planned, but as the youth-camp can not be arranged, we hope that you for example invite your youth councils to take part in the conference program.

We look forward to seeing you all in June!

Jari Rantala, Mayor of Loimaa
